VISITING THE SUGARBUSH- Visitors are always welcome. Please call ahead before visiting except on scheduled open house dates (Maple Weekend, etc.) If you would like to see things in operation plan to visit us during sugaring season. Our season usually runs from some time in February or early March until late March or early April. Sap flow is weather dependent and very unpredictable so call just before coming and we'll let you know if we think we might be boiling. Visitors are welcome at other times of the year, but call ahead to make sure we aren't out working in the sugarbush.
